NEW GAME SETUP - INTRODUCE NEW AMMO PACKS IN GAME WITH NEW FLASHCARDS AND OUTFITS! Overwatch now has a new inventory system for the bombastic weapons and health packs of the new game setup. You can purchase health, shield, barrier, counter, agility, and direct damage ammo packs through this new in-game menu. You can also earn free armor packs through gameplay by collecting a certain number of crystal items throughout the levels, which can be traded for unique sets. Each ammo pack you acquire gives you two primary abilities. Players can see their pack-specific abilities in the action bar. Weapons that don't have ammo packs will also have unique primary abilities. 2. NEW WEAPONS - TRY NEW ANTI-GRAVITY WEAPONS WITH A NEW ROCKETING AMMO PACK, NEW POWERSIGHTS, AND NEW SMALL BULLETS! Overwatch has three new anti-gravity weapons, one for each class. These new weapons are the Blade Flare, a one-time-use weapon that fires a high-velocity bullet, the Spitfire, a shield-piercing gun that fires a small solidified fireball, and the Barrier, which blasts the player through a barrier of liquid metal. There are also new shotgun ammunition types that deal damage to armor or health, one of which is a powerful rocket. Each weapon has a unique primary ability as well. 3. NEW GADGETS - SUPER POWERS AND TRAINING DURING THE ACTION! Overwatch has over 50 new gadgets! The Panic Suit can be used to temporarily create an anti-gravity field in a limited area, using a single consumable charge. This field has a cooldown timer, but it can be recharged by being hit by enemies. You can't use the Panic Suit while inside a gravity field.
