Papillon Puppy PC/Windows

If you are a developer, this theme is a must! Everything from the dialog box to the font sizes can be controlled using the 'STICKER' method. Choose the color of your eyes to match the image, create a 'STICKER' that will match the image, and place it over the eyes. Then you can create two custom icons for the 'STICKER' on the desktop and in the application menu. If you are a developer, this theme is a must! This one of the most powerful themes ever created, and it is both a Windows and Mac theme. This theme will have a much different look on your Mac than on Windows, but the functionality is still the same, and it will work fine on both platforms. This is a must for programmers who like to have fun with the look of their programs and applications. This theme allows you to choose the colors of your system, the background color, the taskbar colors, and the colors of the dialog boxes. Papillon Puppy 5.1.2 Papillon Puppy 5.1.2 Papillon Puppy 5.1.2 CHANGES: This theme was updated to 5.1.2 and includes the following improvements: - All of the images have been enhanced, especially the pony, the tux, and the puppy. - All of the 'STICKERS' have been upgraded to the latest version. - The theme now features full color support for Windows Vista and Windows 7. IMPORTANT NOTE ABOUT CHANGES FOR V5.1.2: Due to changes in the 'STICKERS' which took place in Papillon Puppy 5.1.2, all the 'STICKERS' have been upgraded and need to be re-installed. This means that all the 'STICKERS' now contain the same information as the old ones, but the 'STICKERS' themselves are not the same, and a whole new set of 'STICKERS' is required to be installed in order for the theme to work as before. Papillon Puppy 5.1.2 RELATED THEME: If you want to try this theme on another computer, you can try the accompanying theme: Papillon Puppy for Windows. You can also try this theme on another computer if you wish, but we have just released
