

June 25, 2018 - Operating system: Windows 10 32-bit, Windows 10 64-bit, Windows 7. Installation does not fail if Visual Runtime Studio 2010 is not installed. I am running Visual Studio 2015 installation and everything is going fine. I'm getting a warning that Visual Studio is not installed, so I can resolve this issue by uninstalling Visual Studio in the Software Manager, manually reinstalling Visual Studio, or selecting Install from a different Visual Studio 2010 runtime in the runtime selection dialog.
