# Convert Vhd To Wim

**Download**

July 16, 2018 - Here's a simple script to convert a VHD file to a WIM file #set the folder for the VHD mount \$Mount-dir="c:\\mount" #create folder c:\\mount Mkdir. \$ mount -t vhd \$Mount-dir #run the VHD \$VHD.exe \$Mount-dir #highlight the files and select all the files in \$Mount-dir #and click OK Now the files have been converted to WIM in the directory c:\\mount. Note that you have a mount file and when you start VHD you will have a new mount file. VHD files are stored in the c:\\mount directory, which you can use as a directory to store your files. If you want to use VHD files, just enter them in the launch window.
