Raj is repairing the unfinished car of his late father Deven. Even though it's a futuristic car, Raj can't handle it. Watch Taarzan: The Wonder Car... ahah, that's what I was looking for! I thought it was going to be another fantasy movie with robots or something that would be very boring to watch. But it's actually one of the most interesting films I've seen in a while. Plot. As you would expect, the film is fantastic, both in terms of plot and action. The film is very original and I really enjoyed watching the story unfold. Music.
