I tried to make it work but I am stuck and I don't know where I went wrong. Basically I am trying to make a thread count how many times the file is loaded. The problem is that I don't know how to make sure the thread does not overwrite the already created value. Basically what I want is to add one every time the file is loaded instead of incrementing the value.

```
public class GUI_Practice { public static void main(String[] args) {
new Thread(new LoadFile()).start(); } } class LoadFile implements
Runnable { public void run() { File f=new File("ReadAFile.txt"); int
i=0; while (f.exists()) {
