September 21, 2017 - I saw that HOI3 needs this exe to work, even without the DLC, ... Install and open CFF explorer and right click tfh.exe, ... It's okay to have two (or more) installers; otherwise, you will have 2 files, one for the first version and one for the second, which you can use. If you are using TTT, you can open it and copy the TTT.exe file to the HOI3 folder, or you can copy it to the HOI3 folder. Note that this does not apply to the HOI3 installer, so you can copy the HOI3 exe to the HOI3 folder to run that version if the one you are installing does not exist.
