An animated and simple clock screensaver. nfsWhiteScreensaver Free Download Included with a digital clock. Animated colored bubbles decorate the all white screensaver. nfsWhiteScreensaver What's new in this version: New version of nfsWhiteScreensaver: Version 1.0.1. Animated clock color is customizable by changing the background color on your screen with the CCMSettings. New option: White screen off-time is now adjustable in the Clock Settings. Small bugfix A clock screensaver that features a clock, sun and the moon plus animated bubbles. All in all, an interesting screensaver. Animated bubbles should appear inside a black background. The bubbles that will appear on the screensaver, can be altered with the settings of the screensaver. 1. Create an icon Go to the main settings and go to the Clock Settings. In the Clock Settings window, select "create an icon" and a.png file with an icon will be created. 2. Enter a title In the Clock Settings window, enter a title and description. The description should explain what the screensaver does. It's recommended to enter "nfsWhiteScreensaver" or something similar. 3. Assign a background color Go to the main settings and select a color for the background. The background color must be black and you must also enter a new color in the "Additional Settings" window. 5. Select a clock color In the Clock Settings window, select a clock color for the clock. You can use the "High contrast colors" and choose a color that fits you. 6. Select a time font color In the Clock Settings window, select a font color for the time and date. 7. Enable the clock Select "enabled" in the Clock Settings window. 8. Select a color for the bubbles In the Clock Settings window, select a color for the bubbles. You can use the "High contrast colors" and choose a color that fits you. 8. Select a clock size Select a clock size in the Clock Settings window. In my opinion, a clock that is too large will make the bubbles look bad. 9. Select a background color Go to the main settings and select a color for the background. The background color must be black and you must also
