To install Mob-Boost: In BlueScope, select the correct spreadsheet for the version of Travian you have installed, select Edit. Click the Save button. Open the spreadsheet in BlueScope. Click OK to save and close the spreadsheet. Select the appropriate file and click Save to save the spreadsheet. Click OK to close the spreadsheet. Open the spreadsheet in BlueScope. Select the appropriate file and click Save to save the spreadsheet. Click OK to close the spreadsheet. After the logon screen, click the Travian2 folder on the server. Install Travian2 as instructed on the screen. Download. Go to the Downloads page on the website and download the latest release of the Travian2 client. If you are already logged in as "root" then do not log out. Browse to /opt/travian/. When the installer completes, a Travian2 icon should appear in your application launcher. Travian2 is a nice client because it provides tutorials, examples, and your game favorites for when you need to refer to them. If your Travian2 installation is not working, you can generate a list of servers in-game via: Choose the "Recent Servers" option in the main lobby, then enter any server names (one per line). To install Modular: In BlueScope, select the correct spreadsheet for the version of Travian you have installed, select Edit. Click the Save button. Open the spreadsheet in BlueScope. Click OK to save and close the spreadsheet. Select the appropriate file and click Save to save the spreadsheet. Click OK to close the spreadsheet. Open the spreadsheet in BlueScope. Install Travian2 as instructed on the screen. Travian2 is a nice client because it provides tutorials, examples, and your game favorites for when you need to refer to them. In order to make any changes to the filesystem, you first must log out and log back in again. Browse to /opt/travian/. Choose Linux or Windows from the menu. If the folder is empty, the program will download new content when it is ready. Log into BlueScope and connect to
