? Safe House Simulator is an addictive simulation building game that brings you a completely unique journey of building safe houses and shelters from the horrors of modern society. ? Safe House Simulator is the first realistic survival simulator that lets you build as the players as there is no limit to where you can design your own home - it can be made in a class room, in an attic or in a ship - You can choose from dozens of affordable materials to craft your shelter. ? Because with a safe house you can survive the impacts of any apocalyptic event: nuclear bombs, nuclear war, pandemics, avalanches, radiation etc ? Some of the disasters are still not at all in the game but in the future to make sure that the player knows how to survive such circumstances ? Your goal is to design your safe house and survive in it ? Create your own home, craft and upgrade materials with the help of the resource calculator ? The game shows you real prices of materials so that you can design any house you like ? The player has to manage the housing project from design, build to survival ? Multiple challenges, various obstacles, dynamic price of resources, realistic disasters are all in this game The game is based on survival mode.

---

The game shows you the completion of several goals. Each of them is unique, surprising and a new experience. The game is based on real reports. The game shows you how many families need a safe place. There are several types of apocalypse. Each of them is portrayed in the game. ? There is no backtracking and the player has to design a shelter for his family from the beginning. It could be as simple as a basement to a fortress, there are so many different designs available in the game ? Each household has a goal – they need a safe place. You will have to design a shelter. To achieve this goal, you need to apply the following processes: - Build a house - Material reserve - Structural design - Attachments ? The player can upgrade the house, make it more comfortable. There are a lot of houses in the game, you can buy new houses in between the mission ? The player needs to collect materials from the environment. You have to check the current resources, your planned resources and the cost. ? The player can sell materials from the house to the store. You

Notes On First-Person Gameplay: Game "Escape: Sierra Leone" is a single-player first-person exploration-based survival horror game. It's focused around complete freedom and interacting with a world, instead of rote events, or deadlines to accomplish a given task. For example, you don't have a set mission like escape this island or rescue those people, rather you make your own goals and tasks to achieve. The only real story, besides your own, is the world. How would you escape this place? How do you know where to go? What is the best way to travel to your next destination? All of these and more are factors that go into making decisions while playing. The sandbox nature of the game means that the "right" way or the "right" path to take to your next destination is not the path that needs to be taken. There are no forced activities or task arrows or tasks to accomplish like in a standard point-and-click adventure game. It's up to you to decide what to do next. What you may encounter on your journey, such as enemies, or "fates" such as car crashes, are factors that can't be rushed, and they can hurt you or save you. Tropical jungle islands with a savage jungle, beaches where boat traffic can be heard on the horizon, remote villages along the coast with small populations, an African Union military presence that is supposedly trying to contain and control the RUF on the island chain, the RUF itself, rebels, cartels, pirates, tribal conflicts, corruption, oil, ivory, smugglers, community safehouses, humanitarian aid workers, refugees, mutinies, mutilations, witch doctors, POW camps, and much more. The world is filled with life. It's all real, and it's all affecting what goes on around you. These forces include: the sun, moon, storms, the animals that inhabit the island and the countryside, the presence of armed forces, the presence of civilian traffic, the presence of refugees and other struggling refugees, community safehouses, and more. During a rainstorm, for example, the island will be saturated with water. Not too much, not too little, it's right around you. You have to deal with this as you travel about the island. Having lots of "water" doesn't mean it's raining, as the rain can affect you in other ways. Wading through a swamp of water may not get you wet because you are not out in the rain

## **What's new:**

**)**. The game will be released early August 2016. Kotaku is reporting "that AM33 has gone another excellent route, offering an indie, polished game that could be picked up without worrying about a couch co-op experience. The cost of accessibility comes at the risk of quality and I can't quite tell what that risk is in AM33." It was recently revealed that Activision has cancelled their XBLA title The Walking Dead following the game's release which received an 86 on metacritic. The developer Riot announced that the game would be "making the jump to PC next month." Also in the news, gaming legends Total Biscuit and Chris Preist were teaming up to make another game for PC, Twitch Plays Pokemon. It will be "unlike anything you've seen before on Twitch." Biscuit acts as the "creative director" of The Walking Dead, while Preist is the narrative lead. It has also been revealed that Titan Comics will be working with Transformers 5 director Michael Bay "to make a new Transformers comic, illustrated by Stephen Akin." This will be the first Transformers series. Other news includes the announcement that Obsidian's Shadow of War will include an origami collector's figurine, as well as art prints. At a PAX East panel, it was confirmed that the Collector's edition of Fallout 4 included a disc that earned points for their achievements, could be traded in for weapons from the customization menu, and may be counted towards their DLC "rewards" stockpile. "It's another way to serve gamer rewards," DC Ed Cohen said. We've compiled all the important gaming news from the week. Check out the top links below to view the latest./\*
