But it depends on the disc format of your.Q: Exchange server can't send to outlook i am an assistant system administrator in my office. and i am using exchange 2003 server with win xp in my office and my exchange server can't send emails from outlook 2007 client which i am using in home. my exchange server works good in my office. i installed exchange 2003 sp2 server and windows update from microsoft website. anybody have any idea? thanks alot A: make sure that you have the correct server set as the primary or secondary Exchange server in Outlook in outlook from the Tools->options dialog, select Primary or Secondary Server Q: How to properly implement SSL certificate validation I've just started with running a Node.js

application. It relies on a third party service to validate SSL certificates for itself (it requires that a certificate is signed by a specific issuer). The only other information this service needs to receive is a list of valid Issuers. I have no experience with cryptographic stuff but would like to properly implement this in my app. So my question is
