The greatest conflict of all time. How will YOU change history?Will the newly-installed governments of a number of formerly-occupied nations be able to consolidate the existing states, or will they fall victim to the conflict? Can they find a peaceful solution or will World War II start once again? FIGHT YOUR WAY TO WORLD CONQUEST IN WORLD WAR II TODAY! The Heart of the Continent: The full map of Europe in World War II Expand your vision of the war: The map is broken up into 18 regions that you can trade and interact with separately. It's bigger and better than ever!About German Focus Tree: As the number one economic powerhouse of Europe, Germany has a variety of resources and military units to help fight in the war. From tanks to submarines to strategic bombers, German units are designed for heavy use in combat. Germany also features a unique national focus tree. About Great Britain Focus Tree: Great Britain was hit hard by the war -- its economy still is in rubble. But a mix of British ingenuity and late-night raids from the Royal Air Force still stands. One unique feature in Great Britain's focus tree is its war industry focus. Germany and Japan become better in terms of Strategic Resources, Armaments and Industry. About Italy Focus Tree: The region with the most famous history and culture is the land of fire and destruction. Italy is a key player in the conflict, but it lacks the global military force to match the opposing powers. Still, its unique historical focus tree gives the player the chance to recreate ancient Italian history as he or she sees fit. About Japan Focus Tree: Japan is a country built on deep history and culture. It has a distinct design philosophy, unique artistic character, and classical genius in their arts and culture. Japan is the land of samurai, ninja, and art. About the United States Focus Tree: America's unique focus tree provides the player a new opportunity to fight for her own future, while emerging out of the shadows to battle against the Nazis. The US's focus tree provides access to powerful new air, ground and naval units. The United States also now has its own War Industry Focus tree. New Feature: Focus Trees: Construct a new and unique play experience by choosing one of the new Focus trees available in-game. Achievements: Complete the different National Focus trees to earn achievements. Great War Against History: Complete a nation's focus tree
