Emma Jones used to be a kind, giving young woman. But the hardships of the working world took their toll, and her appearance is what you'd expect for someone with the kind of skill she has: battered, bruised, and beaten from the punches she delivers. After three weeks of hardship and struggling to make ends meet, Emma's best friend Franky hops on a bus to take her to his ancestral home in the countryside where he plans to win his long-lost family's lands back. But when the bus crashes, Emma wakes up to find herself inside an old physics laboratory from an alternate reality. Now that's just bad luck. For it's not as if she isn't capable of taking care of herself. When it comes to surviving in the world, Emma knows it well. She just needs a little bit of help from her gaming skills to clear her name, and save her friend and family from a nasty fate. The Atomic Rune Gamebox (Retail \$60) includes five versions of the game including 2D gameplay, "rough" and "ultra rough" pixel graphics that range from 3-6px.

Routine coronary artery calcium scoring in every patient undergoing noncardiac CT angiography: the national multicenter CT coronary artery calcium scoring trial (CT-CACS). The multisociety National Multicenter CT Coronary Artery Calcium Scoring Trial (CT-CACS) is testing whether routine coronary artery calcium scoring (CACS) is useful during noncardiac computed tomographic (CT) angiography. The purpose of this study was to determine the prevalence of CACS in the US population. Based on the findings from prior studies, a prevalence of 100% was expected to reduce the study's enrollment to approximately 1,800 patients. Questionnaire responses from 4,543 consecutive patients at 30 centers in the United States who were asked to participate in the study were reviewed. Fifty-one percent of the patients had CACS of >0; 35% of those patients had CACS >400. Of the 745 patients with CACS 0. The mean calcium score was 13, and 93% of the patients were asked to contact the patient with CACS >400 in case of a positive finding. Only 10% of these contacted patients were symptomatic. The prevalence of coronary calcium in the

What can you find when you get to the end of the labyrinths? In the end you will hear the soothing sounds of Reedy Mathis' haunting music. I don't know if I would say this is relaxing, or even good for meditation, but it's good music. I've played it while studying, or whenever I want to think. It just gets the brain thinking, and I really like that. 3.0: Addition of a text hint for the game when your path is blocked. 2.0: Addition of an edge collision check to the labyrinths, as well as bug fixes. 1.1: Addition of more levels. 1.0: Initial release.
