What's new in Pray Game:

for S.H. Figuarts Characters I had to apologise in advance for the crappy quality of the pictures, cameras really aren't my thing. I tried a new format here for pictures, one you'd see in stores, maybe even on big platforms. (I like it so far) This is a custom costume for S.H. Figuarts Chibi-measure Giant Panda, the characters colours were appropriated from the American Chibi-measure theme, which can be seen here: I can't imagine any costume set that's more intricate than this. It's so pretty in person. *As you see the costume doesn't have any hands nor any exposed chest, it has its sleeves tightly bound. It's hard to see with the low-res pics, here's some up-close. Silly, silly S.H. Figuarts Chibi Panda... I guess you need to see the pictures at a proper size to get the full benefit of what the costume has to offer (it's pretty stunning) Here's Chibi Panda... And here's Chibi Panda in his armour... Here's Chibi Panda on his uber cute chibi-measure base. This Chibi measuring base is the same measuring base used for the S.H. Figuarts Tanooki-kun Base. Here are a few extra shots taken as Chibi Panda playing around on his base. Here's Chibi Panda posing with his S.H. Figuarts Da Vinci figure. Here's Chibi Panda posing with the S.H. Figuarts Phoenix-kun Figure. Chibi Panda and Tanooki-kun shares a moment. Here's Chibi Panda posing with his S.H. Figuarts Chimera Figure. Here's Chibi Panda playing around with his S.H. Figuarts Fire Dragon. And here's Chibi Panda posing with his S.H. Figuarts King Lion. And here's Chibi Panda posing with his S.H. Figuarts Ushiwak

MOJO is a surrealistic comedy about the tragic relationship between a young girl and a monkey. In the Northern archipelago during World War II, two children, Hanako and a young monkey, Mimiko, fall in love. As time passes, Mimiko is obsessed with the girl and remains a faithful friend and true companion. But for Hanako, Mimiko represents the reality of her desires. The child and the monkey don't get along, but Hanako doesn't know how to escape it. The game is filled with poignant images, such as Mimiko sitting by her side, staring at her and really needing her, and a bloody wall covered with Nuns's bodies. Initially, Mimiko's love for Hanako is pure, but soon, in a bad turn of events, the ideal relationship is corrupted. MOJO is an original short story for the entertainment of those that appreciate lively and funny satire. It's not a direct self-referential work, but it touches the topic of love. How does the story end? The story is more than the "end". The end only tells a part of the story. The story is in the game's environment and in the characters' attitude and thoughts. MOJO blends comedy and melancholy in a unique genre, that is unique for the Japanese and the world. Important: the connection between MOJO and the commercial version of the game is made with the DLC data Installation: - Unzip the content folder into the game files Main Menu: - Open the.cmvb file with the game manager - Select your version Character: - Open the user.ini with the game manager - Select your version In game: - Open the permissions.cfg file with the game manager - Select your version System: - Open the
