What's new:

(2009) Sometime in the mid-eighties, while we were still in high school, I remember reading a comic strip in one of the big weeklies. “Three kids,” I read, “went treasure hunting in the woods. They looked for a treasure chest that was worth a small fortune, in case it fell into their hands. The first kid opened the chest and found \$100 in cash. He laid it down and started to count it. While he was counting the second kid called and said that he had found a Walther PPK/S. The second kid put the gun into the chest with the cash, and told his friend that he would be right over to pick up his money. Five minutes later his friend called again to say that he had decided to open the second chest, too, and that he found two more pistols. The second kid took both of them and went for the third chest. By the time he got there the three kids were arguing. Their argument led to a fight, and the third kid opened the chest. Inside were Czolg and Machete revolvers. The third kid started to raise a hell of a racket, yelling that everybody should get out of the woods, because he had just found a chest full of stolen tommy guns, and a guy like him needed a lot of money.” Since then, the comic strip has stayed in my mind and my thoughts. After all, the life of an outlaw is a challenging one. For sure, it’s much riskier than that of a government agent, or even that of a bank cashier. But it brings in a different reward, too. I wondered a few years back, how it would be to give up the law and become an outlaw. Did I have some special talent for that? Was there any way of being a successful outlaw? Nothing has hit me like the sudden stroke of brilliance, coming to me right out of nowhere. The answer was to be in the honest business of plunders, robberies, and heists. Well, if you believe in a hand of fate to have aplenty, then it’s just another answer. So, by chance and by inspiration, I chose the hard life of an outlaw. I became the sad geezer of the plunder panic. The majority of writers, though, tend to become romantics, and try to find heroic objectives in action. The writer becomes
