## **Development Facts**

- Based on the fantasy universe of the Elden Ring, a property of SQUARE ENIX
- Development started in 2010. The purpose was to make a new fantasy RPG with an original story and high quality.
- The game features an updated and hybridized engine Morpheus 4.0 that was first seen in Severed, a game produced by a different developer.
- Morpheus 4.0 supports online play with other players. This means that players can battle each other through enhanced matchmaking, and that players can cooperate with their friends.
- Graphic processing includes high and realistic level graphics that can be selected in accordance with the environment. This real-time collision response between heroes and monsters ensures a more realistic game experience.
- Morpheus 4.0 features features MTP (Multithreaded Portability) functionality for Xbox One. We designed this engine capability by taking advantage of the architecture of the console. With this feature, the MPAPI interface is not only more stable, it's also easy to use.
