Honda PD43

__NOTOC__ The Honda PD43 is a civil utility airplane developed in Japan in the late 1940s. Design and development The PD43 was a two-place, low-winged monoplane with a retractable tailwheel landing gear, powered by a 100 hp (75 kW) Rotax 583 single-cylinder, three-cylinder in-line piston engine with a 5:1 compression ratio, driving a two-blade propeller. A number of different engines were specified: Rotax 583 Rotax 914 Rotax 914S In addition to engines, the PD43 was available with a different wing surface, with canard and with tractor configuration. The PD43 first flew in March 1949. Production The PD43 was built by Honda in Japan and the Czech Republic. Production began in 1949, following the first flight, and ended in 1951. Two PD43s flew to the 1949 All Japan Utility Airplane Contest. Specifications References Notes Bibliography PD43 Category:1940s Japanese civil utility aircraft Category:Low-wing aircraft Category:Single-engined tractor aircraft Category:Aircraft first flown in 1949How to Rank on

Google My Business by Using Keywords to Your Advantage How to Rank on Google My Business by Using Keywords to Your Advantage There are a lot of individuals who use Google My Business (GMB) for their businesses in order to bring in more business and have more control over their marketing. If you currently have a GMB page, do you know how to rank on it? You have made the decision to build your online business around a business website. However, do you know what you are really doing when you do? In this article, we will be talking about how to rank on Google My Business by using keywords to your advantage. Is that name familiar to you? If not, we will be familiarizing ourselves with the key elements and processes in this article. Is Google My Business (GMB) really that good? If you are asking that question, I will
