**What's new in THE LEGEND OF HEROES: HAJIMARI NO KISEKI - Dragon Incense Set 1:**

- The Legend of Heroes: Hajimari no Kiseki is a JRPG role-playing video game, developed by Chunsoft, and it's the third title in the Legend of Heroes series. The premise of the game is to enlist the help of three viziers to undertake the mission to unravel the mystery of the 100 Hero Contracts. The three viziers for this game are Aoi, Shōzō, and Joichiro, and the status of the Hero Contracts is what brought the three viziers to this world. The level of the Hero Contracts reaches the peak when they are about to materialize, which can cause a world-wide disaster. - As a Hero of the current Hero world, the player would need to collect sufficient power to make a hit on the Vizier system and acquire a Hero Contract, and one of the most important roles in acquiring Hero Contracts is to recruit powerful characters from different worlds by playing card games. In addition to the Hero of the current Hero world, there are also eight Heroes of the past Hero worlds, and this game will feature three such characters (they were acquired by Aoi Vizier). At an all-Youkai Festival, the three viziers should make a bet with each other that one of the three characters from the past Hero worlds will come to collect the Hero Contracts and will bring a better world and a world of peace and harmony to the Hero world. However, it is also possible that there will appear to be a variety of Yourkai characters out of the blue. - One of the characters who will appear in this game is a Hero who is being commanded by a nocturna (black cat) to determine the location of the 2nd Hero. This places the player into a battle against Cael, the demon princess and your rival, who is summoned by the Hero, and this is the decision where the two of them are able to go on a destiny-bond; those two will become one. - The Legend of Heroes: Hajimari no Kiseki takes place in various towns and sectors that are not a usual town and integrates role-playing segments of NPC visits and dialogues. Players can purchase items and collect your items by controlling the party's movement and actions through a battle map (field map, adventure map, and point-and-click map). The scenario will change depending on the event occur while gathering items and the quests progress, which will go to
