Skidrow & Reloaded, Black Box Repack and Gamer-Torrent are some of the top options that you should consider out of 24 available alternatives of FitGirlQ: How to set lambda function as default value of Django model field? I have a field in my model that is a callable function. I would like to be able to set a default value for that field. To do so, I wrote a custom validator like this: def my_callback(value): return my_function(value) def my_function(value): if value == 'Value1': return 'default_value' else: return value def validate_my_field(value): return my_function(value) class MyModel(models.Model): my_field = models.CharField(validators=[ValidateMyField(validators=[min_value, max_value]), ValidateMyField(validators=[my_callback]), ValidateMyField(validators=[my_function])]) I need to set two values for my_function: a default, and the value of the next field in my_model. So if my_model.my_field is empty, value is set to default_value, and if value == 1, value is set to 'Value1'. But I get the error e79caf774b
