Q: How to react on "Server is returning null values" in Spring Boot? So I have a validator class in Spring Boot. I want to validate my data in the class, using @NotNull and @Length. However, I am getting the following exception: Caused by: java.lang.NullPointerException at org.springframework.web.method.support.HandlerMethodArgumentResolverComposite.isNotNull(HandlerMethodArgumentResolverComposite.java:162) at org.springframework.web.method.support.HandlerMethodArgumentResolverComposite.resolveArgument(HandlerMethodArgumentResolverComposite.java:109) at org.springframework.web.method.support.HandlerMethodArgumentResolverComposite.resolveArgument(HandlerMethodArgumentResolverComposite.java:73) at org.springframework.web.method.support.HandlerMethodArgumentResolverComposite.resolveArguments(HandlerMethodArgumentResolverComposite.java:99) at org.springframework.web.method.support.InvocableHandlerMethod.getMethodArgumentValues(InvocableHandlerMethod.java:158) at org.springframework.web.method.support.InvocableHandlerMethod.invokeForRequest(InvocableHandlerMethod.java:124) I know that this has something to do with the null values returned by the server. But, I have no idea what to do about it. This is the class with the error: @Component @Validated public class RoomTypeValidator { @NotNull @Size(min = 1, max = 20) private String type; public String getType() { return type; } public void setType(String type) { this.type = type; } } I'm sorry if the description isn't good enough, I don't have the time to read it all over again. EDIT: This is the complete error that I'm getting: HTTP
