Toolbars In AutoCAD's default look, there are three type of toolbars: Toolbar for Graphical Editing This is the standard edit toolbar that displays commands to edit text, objects, styles, layers, points and dimensions. Toolbar for Document Setup This is a toolbar that displays commands to configure the default workspace, preset drawing preferences, and the working area. Taskbar The last two toolbars are a combination of the two former toolbars and is displayed whenever the user wants to work on a drawing without opening a drawing. Ribbon AutoCAD 2007 introduced the ribbon, which also replaces the dialog boxes on the status bar. The ribbon is a toolbar with icons. These icons indicate the command selected in a tool. The ribbon provides access to the entire ribbon surface and a detailed representation of the current selection. The ribbon is also used to access the options, shortcuts and navigate

around a drawing. Introduction AutoCAD LT is a version of AutoCAD 2000 or later that does not contain the full AutoCAD functionality, but is intended for use in non-commercial environments. AutoCAD LT allows users to open and edit non-linear and labeled 2D drawings in a DXF (Drawing Exchange Format) or DWG (Drawing Interchange Format) format. AutoCAD LT has added the ability to quickly open a new drawing from a saved DXF or DWG file. AutoCAD LT is only available for users who do not have access to AutoCAD. AutoCAD LT is based on the source code from the early releases of AutoCAD, it was supported until 2005 and had some capabilities up to version 2003. History AutoCAD LT was introduced in 1999 by a Canadian company, Numerical Design, as AutoCAD LT 2000. Numerical Design is the last company that owned the rights to AutoCAD. The name was changed in 2004 to Autodesk when Numerical Design was bought out by Autodesk. Product structure AutoCAD LT includes
