[Latest] - Karan PC Driver Navigator 3.4.5.4275 PreActivated [KaranPC] Driver Navigator 3.4.5.4275 PreActivated [KaranPC] - - - - (with year, month and day) I've just tried Unattended mode, not to detect but just to make W7 to install drivers and other things needed to run. It doesn't install any additional components, but stuck on "Doing initial exploration of hardware". I can only cancel this action. I'm trying this for 4-5 hours, because I can't find any solution. I'm installing Win7 completely as new. I've backed up my important data, installed my USB flash and DVD drive in boot drive. Crap, I can't even proceed. A: Change the boot order, clear the CMOS, and it should work. Before messing with the boot order, clear the CMOS using one of the following methods. Clear CMOS Recovery Options If you don't have access to a Windows 7 installation disk, you can clear the CMOS using the Windows 7 CMOS setup utility. This utility is included on the Setup DVD for the Windows 7 operating system. Start Windows 7 Setup. Click Next. Click More Options. Click Reset. Click Reset your PC to factory settings. Click Next. Click Troubleshoot. 6d1f23a050
