"I have a bird's-eye view of the human condition," King tells the Washington Post, "and everything I write is intended to demonstrate the terrible, dangerous, kind of exciting possibilities of being human. I may be able to convey an entertaining story, but the point of that is to leave a wake of shivers up and down the spine." King has no problem taking moral stands and giving personal advice: In the never-published "Cure For The Aching," he describes what it would be like to live his life over again if he knew he'd die the next day. "You see? It was an ordinary day, an ordinary life, but how dangerous," he says. "I think if you're going to commit suicide in the morning and wake up in the exact same circumstances, you'll do pretty much the same thing." King also tells the Post that he's not a big fan of the idea of having a "first edition" with your first name on it—"as if you were some kind of publishing heiress. Who is that to think of yourself as?" he asks. "It's just more bullshit, in my view." (Read more Stephen King stories.){#sp1.17}
