Now, I'm trying to combine the two using Shell Script. I tried the following : (please note that the file1 and file2 are the same)

`#!/bin/sh cat file1.html file2.html >> file1.html` When running this I get the error "cat: file1.html: Input/output error" I tried another way using cat, sort and grep but have the same error. A: When running your script, set it to run as a user with the required privileges (e.g. root) - then the text files will be readable.

Otherwise, you can try: `rsync -aP --ignore-existing file1.html`

`file2.html file1.html // // detail/timer_queue_base.hpp //`
