Don't worry, Smart Switch makes it easy to transfer contacts, photos, messages and other types of files. You can even back up your old phone. While many smartphone makers are focusing on their iPhone security features, Android makers seem to be putting more emphasis on functionality. Not so long ago, Samsung released an application designed to exchange contacts, photos and messages between smartphones. Now it's time for Apple to introduce a similar tool to its users. Now the company has introduced a new app called "My Smart Switch".
