
Krivos Boys

Oct 15, 2021 - Coub is a YouTube for video loops. You can take any video, trim the best part, merge it with other videos, and add a soundtrack. In one day, July 23, 2012, more than 1 million users uploaded more than 100,000,000 cubes, and the number has increased every day since then. Cubes were created to host two parts of a video or media file: the first is the part of the video/movie that will play in the cube for a specified time (in some cubes it can be from 1 to 30 seconds), and the second part is the animation that users can edit using an easy-to-use interface.
