thetrafficinalbookintamilpdf This year I decided to take larger photos. And for this, I needed two new lenses. You can see one of them in the foreground. This lens, named Tokina AT-X 116 PRO DX II, I bought on aliexpress. The cost of this lens at the time of purchase was 5,741 rubles. Now this lens can be bought for 5,000 rubles. The second lens to be shown in the foreground has since become one of my favorite lenses.
