The measurement of plasma YKL-40 levels in a small number of patients with ARF in this study confirmed the association of this biomarker with the course of the disease and the severity of renal injury. We found that plasma YKL-40 levels were significantly higher in ARF patients than in controls and that an increase in YKL-40 levels was accompanied by a higher risk of progression to CKD and by a higher risk of death. Importantly, in the multivariate analysis, YKL-40 remained an independent predictor of both clinical outcomes. Since the first description of the physiologic role of YKL-40 in the kidneys by Kuma et al.[@b16-tcrm-12-687] and Choo et al,[@b18-tcrm-12-687] many groups have confirmed the association of increased plasma YKL-40 levels with CKD, acute kidney injury, and RAS inhibitors in animal studies and in humans.[@b13-tcrm-12-687]-[@b15-tcrm-12-687],[@b18-tcrm-12-687]-[

What's New in the AutoCAD?

Save time and use the software tools you already know. A new Markup Assist tool turns a selected object or line into a comment that can be added to a drawing with the click of a button. Improvements to the AutoCAD Web App: More location information, including buildings in the clouds. (Video: 1:50 min.) Access drawings and comments from anywhere. Customize the UI and speed up your editing workflows. Improvements to Comments and Drawing History: Add comments directly from a drawing's context menu. Access comments from the History panel. Speed up your commenting workflow. Advance Comments and Drawing History will be available to registered users of AutoCAD WS 2020 and 2019 on the web. Enhancements to the Drafting & Annotation Environment: Tighten the connection between markups and annotations, such as objects and dimensions. Now when objects are selected or dimensions are docked, the drawing area becomes selected. Select the first object or dimension in a drawing. It becomes the selected object. Draw the first dimension or object in a drawing and it becomes the selected dimension or object. Quickly edit a drawing's entity and all annotations become automatically updated. Draw a graphical representation of a dimension or entity in two steps. Track a selection against a dimension, object, or a graphical representation. Select an annotation, and the drawing area becomes the selected object. Annotation options make it easier to identify dimensions, lines, and other elements. How to get the new product: Current and future users of AutoCAD WS 2020 and 2019 on the web can upgrade to AutoCAD WS 2023 free of charge. Users of AutoCAD WS 2019 can download the upgrade
