What's New In AutoCAD?

A new camera feature named "Find in Edit" automatically locates annotations on existing models. (video: 1:15 min.) Dynamically Change the way you mark objects in 3D views. Now, you can activate or deactivate different views for drawing using Dynamic View Settings. Use it for more efficient drawing. Support for Vectors and AutoCAD Cloud: Free, mobile-friendly support for Adobe® Illustrator® (AI) and Adobe® Photoshop® (PS) files for designers. Your designs can be exported to the cloud and open using applications such as PowerGlossary® and Scribe. PowerGlossary® is the most efficient way to read technical drawings. Now you can work with annotations, receive and send feedback, comment on drawings, and have fun with custom glossary terms. (video: 2:30 min.) Upgraded collaborative editing. Upload your work directly to Microsoft® Office 365 for free. Share comments, links, drawings, and diagrams with others, and receive feedback right away. You can now work with your drawings using Microsoft® Office 365 and collaborate with others in real-time using Teams, Skype for Business, and Yammer. Support for other Microsoft® Office 365 services such as Microsoft® Excel® and Microsoft® PowerPoint® is also included. What's next for Autodesk: We're also investing in our future by funding new technology. For example, our research and development (R&D) teams are working to develop AI and machine learning to advance AutoCAD. We're also working on exploring ways to automate the process of creating 2D drawings.
