If youre using a mouse on a surface, you might notice the mouse has a higher chance of skipping. This may have to do with the drivers for the mouse. Different mouse drivers may require different features to be enabled on the mouse. The mouse is made out of plastic, so simply cleaning it can help when it starts skipping or randomly jumps around. Also, make sure your cursor isnt clicking on the edges of the mouse. If the mouse is skipping to the left, make sure youre not pressing it to the right. If youre having issues, your mouse drivers may be configured improperly. If youre using a program to configure your mouse, make sure the mouse isnt in the Advanced Mode. Also, make sure its not paired with a device you dont need. Rexus Rexus G7 is again at the top of its game. This mouse is the fastest of all mice on the market. It comes with a lot of exciting features like 4 programmable buttons, DPI rate selection, and more. This mouse will bring home all of your gaming needs. A mouse that has a similar shape to a mountain goat. The Rexus is one of the lightest, most ergonomic gamers out there. The Rexus weighs just 70 grams and comes with a non-slip rubberized surface for on-the-go comfort. One side of the mouse is aluminum and the other side is plastic. The Rexus is both an excellent mouse for speed and comfort. The minimalism and lack of clutter makes it super intuitive and does not get in your way when you're on the move. A built-in two-button roller is one of the best mouse features, but it cannot be removed unlike the competition.
