Advanced Technology Xchange (ATX) is an alliance of advanced technology researchers and practitioners. It is a European project which aims to provide Europe with state-of-the-art AI technologies. It is a research-oriented project driven from the technical point of view, while its focus is on the transfer of technologies to industry with the aim of developing advanced businesses and supporting European innovation. The ultimate goal is to improve the quality of life of European citizens through the application of advanced technologies. With the passage of time, ATX has not only achieved its goals but has gained recognition as an outstanding European project. ATX was awarded the European Commission's Innovation Trophy 2018 in March 2018. It also won the European Commission's 2016 European Technology Platform competition. It is a founding member of the European Academic Network on Digital Earth. ATX is based on a unique set of European universities and universities of applied sciences. ATX is coordinated by the Artificial Intelligence Institute of the University of Ljubljana (ISI) and hosted by the University of Amsterdam (UA).
