BEDAT Software: Extract RAR/7ZIP/CAB/TAR Files With Ultra Fast Speedy Free.... Hey I wanna to ask you, what is the total download size of SioNet Pro? I have estimated around 42mb but is it really? Hi, I have an old windows XP pc and got it throug a transfer from a friend. It has windows 10 already on it, but i want to download some extra softwares. And I have got a lot of.rars, which I want to extract with BEDAT Software. I have tried several times, and it always stops with an error (the error has no log). So is this software suitable for that older computer? I mean, are the files I extracted gonna work or do they need a log? I hope my question is ok or is it.....but can someone help me? I want to extract some files from a.rar with this software. Can I use it on an older PC, which does not have any software running? I have tried several times, and it always stops with an error (the error has no log). So is this software suitable for that older computer? I mean, are the files I extracted gonna work or do they need a log? I hope my question is ok or is it a bad question for here? I just can't extract anything on that older PC.
