## Igo 8.3.4.102680 17

Hello friends! got my HD 2 yesterday. I tried to install iGO 8 (previously d on my HD) on my HD 2.

When I tried to rotate the screen. â†‘ â†‘ â†‘ (this is just one of many I've tried) a red square appears on the "icon" in the lower left corner. It's not a mistake. I tried resetting all settings. After a reboot, the icon changes to an HD icon as expected. When calling app icons again, it doesn't change when I click on the icon. I haven't been able to install iGO 8 for several days, but now I can

### Igo 8.3.4.102680 17

November 18, 2009 - I tried to install iGO 8 (which was previously installed on my HD) on my HD 2. #17. already tried zoom, but it is useless with iGo, .

You must get a new edition of iGO or update iGO from within iGO. The update takes about 30 minutes. By this link. What is the problem? If you try the app in iTunes and end up opening it on your smartphone, you should see an icon on it that is the iGO 8 Premium version (iGO8.img) instead of the "iGO" logo. As far as troubleshooting go, try a few things I've tried: Install the old version of iGO from iGO official website. (I've already tried this before)
