

X1 Professional Client Version 6.7.1 Serial Numbers ((FREE))

Download

one of the new features in version 6.7.1 is the ability to create edit scripts. these are similar to scripts in the admin client except that they can be run with a simple click. the edit scripts can be saved as templates and can be used to re-create any previously created scripts. as of version 6.7.0, all sketchbooks are now in read-only mode. any changes made to the native sketchbook file are dropped from the library and re-saved from the admin client. if you use the native sketchbook to open a new project, it will be saved in the native sketchbook format (not a solidworks project). i have a complete system for sale. includes the amp, amplifier, and a stack of new neuroptimal 3.0 professional system nodes. the neuroptimal 3.0 professional system is a complete z-score training and connectivity suite, which includes connectivity from 19 channels, a z-score trainer, and the zucor grind. brainmaster will provide a new passkey for the system if it is purchased from them, however, it is highly recommended that you purchase the media player first, then the connectivity suite, and lastly the zucor grind. the media player is the brainmaster emerald interface, and it is a sinch compatible product. the connectivity suite is the brainmaster z-score trainer, the zucor grind is the z-score online learning platform. you can use the zucor grind to create your own z-score training as well. the amplifier is the discover 24 with impedance lid. the software is brainavatar 4.0 series. it includes acquisition, loreta projector, 19 channel z-score training, connectivity suite, media player, and zucor grind. the software can be directly downloaded onto your machine from brainmaster. i will ship the amp and let brainmaster know about the transfer. they will then generate a new passkey for you that combines the amp serial number with the hardware address from the machine you would be running it on. i bought the complete system as their emerald package, which they now sell for \$16k (the zucor was an extra \$500). however, the caps will not be included in this transaction. i am asking \$9k + shipping. i recommend that you contact brainmaster concerning their affiliate membership for any tech support or training needs.
