flip pdf professional is an easy to use tool for creating interactive digital flip books from pdf files. flip pdf professional is a professional page turning software for converting a single or multiple pdf files into a flipbook format. you can easily create stunning flip books from your own pdf files using the page turning effects. in any case, i've been using flipbook for quite a while. it is easy to use, and the import feature is brilliant. it is free for the first 100,000 pages. i have no idea what all the fuss is about. there are better ways to do what flipbook does. that being said, i use it to design my pages, and then import them into kindle, then into smashwords, and then self publish. i also use it as a kind of scratch pad when i am designing a page. it can be frustrating to get the spacing exactly right, but i think it is an easy product to use. flip pdf professional is an

application for windows and mac. it offers a page-flipping software for publishing your pdf documents on the web as a page-flipping flipbook. it allows you to publish your ebooks online without website domain limitations or paying royalty fees. you can also distribute your publications via email, cd/dvd or usb drivers in zip/exe format, mac app, fbr (can be easily read offline with free flip reader), or on mobile (iphone, ipad, ipod touch, and even android-powered devices). besides, you can directly publish the flipbook to your ftp server, email to your readers or create *.scr format flip book to use as screen saver. in addition, you can publish the flipbook as wordpress plugin, joomla & drupal module directly. in this way, you can use flip pdf as a free windows software to turn pdf files to digital page-flipping flipbook or publication.
