Okay, so these smoothies. Theyre thick, delicious and only three ingredients! THREE! Bananas, strawberries and yogurt blended together. Does it get any easier than that I think not. Well, besides buying a smoothie but its not anywhere as quick or cheap! The first time I made something similar, it was way too banana-y (totally a word, just go with it) for my liking. I dont mind bananas, but I really wanted the strawberries to stand out because strawberries are delicious and awesome. In this version, you get more strawberry with a hint of banana. Its still there, just not screaming at you. I like that. Strawberry banana oatmeal is not my favorite oatmeal, but I have to admit I love this recipe! The first time I made it I added a teaspoon of stevia and some cinnamon and it was delicious. Then I tried it with banana and it was even better. I also tried it with peanut butter and it was very good that way too! Another great oatmeal. I just wish the store I bought it from had large containers. I tend to have to spoon it out of the jar. This is absolutely fantastic! I used 1/2 cup of oats, almond milk and almond butter instead of PB and pumpkin as well as banana. Only changes I made. I was pleasantly surprised by how thick it was after it cooled and I may add chia/flax some day for a little more thickness or just leave it without. I have to admit I bought my oats from the store, and they were really sweet. This version was much better. Every time I make this I have a hard time deciding what flavors to use and it's a labor of love, but it's so tasty and so easy!
