Features: Having problems downloading your songs from MOG? Well firstly let me say that MOG is a good music download site, I use it myself and love it. But having said that, I have some problems with downloading my songs from MOG on my Samsung Galaxy S III. First of all, let's start by stating that the problems are not limited to just MOG, I am having problems with any download service or program in which I am trying to download songs from. The problem occurs when MOG is sync'ed with my phone and I try and download a song through MOG. It will attempt to download the song and when it tries to sync the song to my phone, it fails and it says that it's been downloaded but that is the only thing that is ever downloaded from MOG. Well that's not really a problem but it's something that is a little frustrating. So to get to the point of this tutorial: Using the free app "MediaGate" from the Android Market, I can download the songs from MOG in a way that doesn't fail on my phone. So how did I get this app to work? First of all, there's another app called "SmartMOG" that you can download from the Android Market that does the exact same thing as MediaGate, but with some additions. The problem with the App "SmartMOG" is that I don't own it, I use it for free from Google (Yes Google, but it's free to us.) I 2edc1e01e8
