We all know that the economic crisis affects not only the banks, but also affects us directly. It is our jobs that we are going to lose if the crisis continues for a long time, and so we have to find a way to protect our jobs. Tech support scams are an industry-wide issue where

scammers trick you into paying for unnecessary technical support services. When you purchase one of these cheap support contracts, you may not be able to call the number back and actually talk to a human. Instead, you'll have to play a waiting game as
