What's New In?

This script converts CSS into HTML and adds them to the css folder. Why use this?: Because it's complicated to add CSS to many different pages (this script does it for you) What can this do for me? If you have a css folder, this will automatically make the CSS files, and add them to the css folder. The process: 1) Put the folder path you want to convert in the input field. 2) Choose the output folder in which you want the CSS to be converted to HTML. 3) Press convert. Enjoy!
