What's New In Portable XgD 039;s Countdown?

XgD's Countdown is a timer that can sit on your desktop or in system tray and count the time remaining to a user set event. It supports various levels of transparency and the background color can be customized to your needs. NOTE: Some antivirus and antispware programs flag XgD's Countdown as being infected/malware, although the application is perfectly safe and does not pose a threat to your system. This is called a 'false positive'. The term false positive is used when antivirus software wrongly classifies an innocuous (inoffensive) file as a virus. The incorrect detection may be due to heuristics or to an incorrect virus signature in a database. [Similar problems can occur with antitrojan or antispware software.] System Requirements: XgD's Countdown is a lightweight application, and does not require a high system resource. It will run smoothly on almost any system without problems. XgD's Countdown will continue to work even after the system has been suspended or the power has been turned off.
