What's New In?

From the outset, the game intends to awaken the player's awareness of the dangers of smoking. The anti-smoking protagonist is presented in his smoking outfit and, as such, goes along on his own dangerous journey in which he has to defeat all the enemies that he encounters along the way. He

has to shoot down enemies with his weapon, and these are mainly smoke balls that try to return fire by throwing their cigarettes. The game offers you the possibility to complete the mission by either going through the office rooms in a straight line or on the go and searching for keys that unlock the doors and give you access to new areas. Finally, you can either purchase additional oxygen guns with the game's premium currency, or use other players' weapons. For this reason, it makes sense to collect these weapons when you find them. The game is a relatively short, casual game that is easy to complete within a few minutes, but also offers multiple paths to play through. The office rooms and the mission objectives are designed very well, and as a result, the game comes across as quite amusing.
