Police are treating the deaths of a 16-year-old boy and a man in their 20s as murder. Detectives launched a major investigation at a farm in Chapel Allerton after the bodies of the teenager and the man were found at around 11am on Saturday. Both men were stabbed, both at the same time, by a person or persons unknown. The pair, who are not related, were in the area at the time, but how they came to be in the area remains a mystery. (Image: PA) The 16-year-old was discovered in the barn of a farm on Wessington Court in south Allerton, near Scartho, Bradford, while the second body was found in a field on the opposite side of the road. The arrests of a 47-year-old man and a 47-year-old woman came after a search warrant was executed at their homes in Shipley and Leeds. Bradford Central CID Detective Chief Inspector Jon Ward said: "The men, who are not related to the victims, were arrested on suspicion of two counts of murder yesterday and remain in custody. "They have been assisting detectives with our inquiries and providing us with information, however, we are treating their arrest as a precautionary measure. "They are not being interviewed at the present time and at this stage we have no reason to believe that anyone else is involved. "We will carry on speaking to them, which we are doing as a matter of urgency, and once that is complete, we will interview anyone else who may be in the vicinity." DCI Ward confirmed no further arrests had been made.
