hi how can i install autocad 2008 on microsoft windows 7 64 bits without crack?? A: To use Autocad 2008 for Windows 7, you need to download and install the "Autocad 2008" installation package (file size 3.5GB). I assume you are using a version of Autocad 2008 which is adapted for Windows Vista, 64 bits, because the very first time you download the Autocad 2008, you get the message "This product requires Windows Vista (32/64 Bit)". That is normal, it will not work properly with Windows 7. If you want to save the file of the first time you downloaded Autocad 2008, rename this file to a name you do not use for another file.
