System Requirements:

To play the game you will need an Oculus Rift, HTC Vive, Windows, Mac, Linux, or Google Cardboard. You can also play on a monitor, or on a TV, but please note that this will restrict your field of view. For example, on a monitor, you would be able to see on both sides of the field, and from behind the field on the same side as the monitor. You will only be able to see a portion of the field on a TV. You can also play on mobile, but you will need to modify some of the movement controllers
