It will show you a series of misleading, cute videos that might quickly put a smile on your face and, in many cases, you'll wonder how you lived so long without it. Despite this though, we'll try not to give too much away and simply let you discover the site on your own. What we can tell you is that the concept of the site consists of just watching the authors' hand-drawn animations of regular people doing some creative things. All the videos have a light-hearted theme and their creators are obviously very talented in the field of animation. We are not gonna give you a timeline of when they were produced because that would probably be impossible but we will show you a couple of them right here to give you a better picture of what we are talking about. The videos below are not meant to be taken seriously but they are certainly funny. It could take a couple of days or even a couple of weeks before we see something that we don't find to be as funny as these but, at least, they are funny. Let's take a look at a couple of them. 1. An amazing painter does something absolutely hilarious You see the guy with the pipe. He is amazing. He does something. He has been drawing it for a couple

Oxygen not only helps you save your files and open them from another place or at a different time, it also organizes your files in a cool playlist so you can easily organize them into different categories. Supported formats: Oxygen supports both the MOV and MP4 file types, and it can handle both these formats in MP4 containers in your Mac. How to open MOV files in Mac: If you plan to open MOV files in your Mac, you can double-click on it and it will open with Quicktime player. How to open MP4 files in Mac: MP4 files can be opened using Quicktime player, so that you can play your video or listen to your audio. Compatible version: Oxygen comes with the latest version of iTunes. What's New in Oxygen: Oxygen comes with a clean new interface, a real playlist, and a few features that make organizing and accessing your videos simple and easy. Reviews Some great new features in the latest release 5 By OhGodLoosesMyTrolls Love this new version, one of the best "social media" apps out there! The video player is much faster, easier to use, and the playlist feature is a huge help! iTunes 5 By NickNY Oxygen is such a great program for Apple computers. I use it to organize my songs into playlists, movies into folders and it's a great video organizer. Amazing! 5 By windyroad This is an amazing app! I have used it for a while now and it is great for organizing all of your music and videos, while still being a very small app. A + 5 for Oxygen!!! Awesome App 5 By AlexHNFS I use this app to manage all of my apple products, really like the playlist feature for easy music. Also it is one of the few apps where I can see the song lyrics to the music. Love the app and will stay with it. Organize Like I Would My Hard Drive 5 By orlpki4z Great app for a simple way to organize your music and videos. I have a subscription to iTunes Match so all my music is in the cloud and I can access it anywhere. The folders I created in iTunes are for the music and videos I have
