What's New In EuromediWebcams?

Euromediwebcams is a Widget that can browse more than 370 cams from all the Euromediwebcams can be used to browse the content of the webcam in a WebBrowser, it can also be used to open or close the webcam on iPhone. Euromediwebcams can be used to browse any webcam in the world with any webcams program or browser. We offer you a free cams interface is a WebView, it does not require a webcam and it's not a webcam app. It's a simple WebView with a webcam interface, we have our own virtual camera, thanks to a Javascript simulation, we emulate a webcam. You can zoom, disable the webcam, put a name, status and set a timer. It can be used for: - time lapse (calculate the time lapse in seconds from the webcam using Javascript) - get a picture with the webcam (the picture is loaded with the webcam interface) - webcams sound (use the javascript to receive sound from the webcam, eg audio from webcam is used in YouTube) - get a video from the webcam (you can get info from the webcam using a Javascript API) Euromediwebcams can be used as a good webcam simulator, and to make a Real Webcam Interface, that you can use in any app or browser This webcam interface does not require a webcam, it's an awesome webcam you can use it for: - webcams simulation (it can simulate any webcam) - take a picture of the webcam (you can use an API to take a picture) - time lapse (it can calculate the time lapse between 10 you can use the javascript to get a sound from the webcam (you can use the javascript to get a sound from the webcam in the Piazza) - sound from the webcam (you can use the javascript to get a sound from the webcam in the Piazza) - sound from the webcam of your webcam simulator in the iPhone. It's a cross-platform application (Web, iPhone, Android and Blackberry) It's compatible with most web browsers (IE, Firefox, Opera, Chrome, Safari, Android, Blackberry, iPhone) Euromediwebcams is a Widget that can browse more than 370 cams from all the Euromediterranean Region
